

DOWNLOAD GUIDE FOR ACUITY SIGNAL CENTRE ON PHILLIP MT5

1. Before installation, please check that your Phillip MT5 platform is functioning and connected to the correct server. If you don't see figures as indicated, you may not have an active account, you may have entered the wrong account number/password, or you may have lost internet connection.

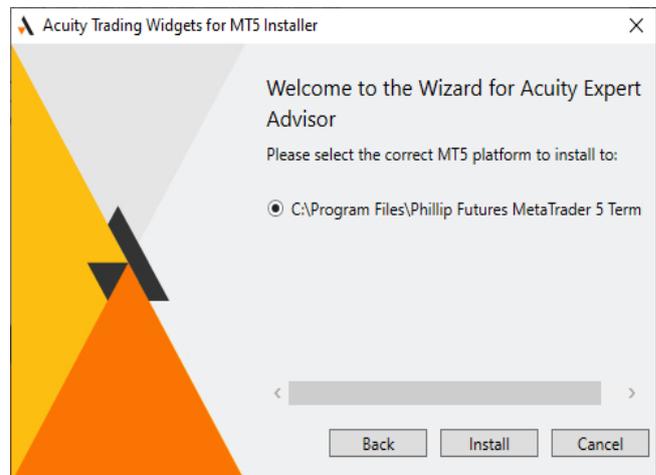

2. Run the installer using the following link <https://bit.ly/downloadAcuity>

3. A pop-up window will appear to query about your desired language for the installer

4. Then you will be asked to select the Instance of MetaTrader and where to Install the tools. Make sure to select Phillip Futures MetaTrader 5 (MT5) if you have multiple MT5 terminal installed.

5. Click 'Install' to run the installer

11. Your download is now complete. You can start utilising Acuity Signal Centre to generate trade ideas.

To uninstall the expert advisors, there are 2 options available:

1. Run the installer and follow the on-screen procedure. At the last step, the EA will be removed.
2. Go to Add/Remove program in your control panel and find 'Acuity Trading EA for MT5' option in the list and uninstall.

TROUBLESHOOT GUIDE

Error message occurs while running the installer

Possible Reason

If you have an older installation of the expert advisor, those files might have become corrupt and prevent an updated installer to successfully complete the process.

Resolution Steps

1. Uninstall the expert advisor following the steps outlined above
2. Run the installer again

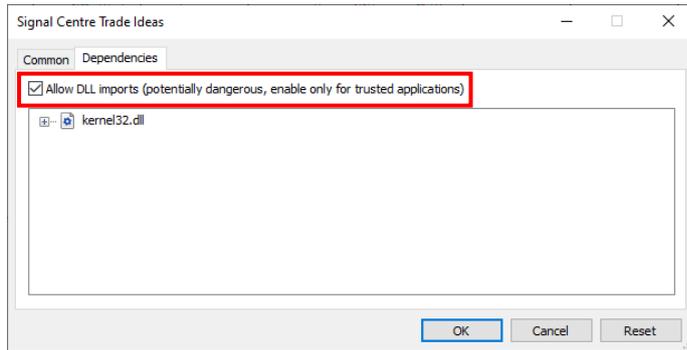

After installing and attaching the EA to a chart, the EA does not load, and no error message is displayed

Possible Reason

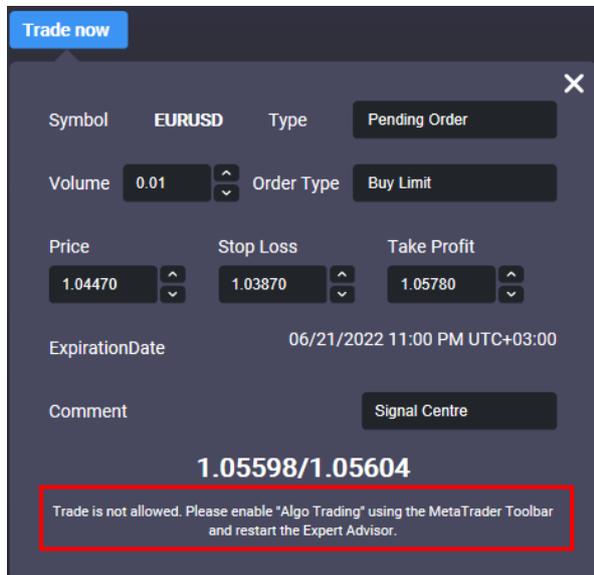

The EAs loading the widgets uses external scripts and DLLs, and this option may be disabled during the earlier download step.

Resolution Steps

Reattach the EA to the charts and ensure that the box 'Allow DLL imports' is checked

Error message appears when placing trades identified by Acuity Signal Centre

Resolution Steps

Enable "Algo Trading" in your toolbar and reattach the EA to your charts
